

BEKY KITCHENS

Master Business Knowledge Base, Sales Manual & Operations Manual

Business: Beky Kitchens

Industry: Kitchen Design, Cabinetry, Construction & Installation

Location: Pakenham, Victoria, Australia

Experience: 20 years

Business Model: Supply & Build + Install Only

Data Status: All business details, policies and prices in this document are fictional and created for business/AI training purposes.

1. BUSINESS PROFILE

Business Name

Beky Kitchens

Business Description

Beky Kitchens is a kitchen construction and installation business specialising in:

- Complete kitchen renovations
- Custom kitchen cabinetry
- Kitchen cabinet supply
- Kitchen cabinet installation
- Benchtop installation
- Splashback preparation and installation coordination
- Kitchen demolition
- Kitchen removal
- Cabinet modifications
- Appliance integration
- Sink and dishwasher cut-outs
- Pantry construction
- Island benches
- Laundry cabinetry
- Kitchen storage solutions
- Flat-pack kitchen installation
- Owner-supplied kitchen installation
- Replacement kitchens
- Kitchen renovation preparation

Beky Kitchens has **20 years of industry experience** and focuses on practical kitchen construction, accurate installation and professional finishes.

2. BUSINESS MODEL

Beky Kitchens operates under two main models.

Model A — Supply & Build + Install

Beky Kitchens manages the kitchen cabinetry component and installs the kitchen.

This can include:

1. Site measurement
2. Kitchen planning
3. Cabinet selection
4. Cabinet supply
5. Cabinet assembly where required
6. Cabinet installation
7. Cabinet levelling
8. Panel installation
9. Kickboards
10. Fillers
11. Doors and drawers
12. Handles
13. Benchtop coordination
14. Appliance integration
15. Final adjustment

Model B — Installation Only

The customer purchases or supplies their own:

- Cabinets
- Flat-pack cabinets
- Custom cabinets
- Doors
- Panels
- Handles
- Benchtop
- Accessories

Beky Kitchens then charges for installation and any agreed preparation work.

Customer-supplied products must be inspected before installation.

Price: \$420

Laundry Benchtop Installation

Price: \$650

19. STORAGE SOLUTIONS

Beky Kitchens can provide practical storage solutions including:

- Pantry systems
- Drawer storage
- Pull-out bins
- Corner storage
- Appliance cupboards
- Tall storage
- Open shelving

Pull-Out Bin Installation

Price: \$280

Corner Cabinet Accessory

Price: \$450

Appliance Garage

Price: \$520

Open Shelving Installation

Price: \$350

20. CUSTOMER-SUPPLIED KITCHEN POLICY

Customers may supply their own kitchen.

This can include:

- IKEA kitchens
- Bunnings kitchens
- Kaboodle-style kitchens
- Flat-pack kitchens
- Custom-made cabinets
- Second-hand cabinetry
- Cabinets purchased online
- Cabinets supplied by another manufacturer

Beky Kitchens is responsible only for the installation work agreed in the quotation.

21. CUSTOMER-SUPPLIED MATERIAL CONDITIONS

Before installation, Beky Kitchens checks:

- Cabinet quantity
- Cabinet dimensions
- Door quantity
- Drawer quantity
- Panels
- Fillers
- Kickboards
- Handles

- Hinges
- Fixings
- Installation hardware
- Benchtop
- Accessories

The customer is responsible for ensuring that all supplied products are available when installation begins.

If missing parts prevent installation, additional attendance may be charged.

Return Attendance

Price: \$250

Additional Installation Labour

Price: \$95 per hour

22. CUSTOMER-SUPPLIED CABINET RESPONSIBILITY

Beky Kitchens does not automatically accept responsibility for:

- Incorrect cabinet sizes
- Missing parts
- Damaged panels
- Manufacturing defects
- Incorrect colours
- Incorrect quantities
- Incorrect cabinet configuration
- Poor-quality materials
- Warped components
- Missing hardware
- Incorrect benchtop measurements

The installer should identify obvious issues before installation where reasonably possible.

If a supplied cabinet is defective, installation may be paused until the issue is resolved.

23. SITE MEASUREMENTS

Standard Site Measure

Price: \$120

The measurement process can include:

- Wall dimensions
- Floor dimensions
- Ceiling height
- Window locations
- Door locations
- Plumbing locations
- Appliance locations
- Power outlet locations
- Existing cabinet dimensions
- Service penetrations

Measurements should be confirmed before manufacturing or ordering cabinetry.

24. KITCHEN DESIGN CONSULTATION

Initial Kitchen Consultation

Price: \$120

Discussion can cover:

- Kitchen layout
- Storage
- Cabinet style
- Colour
- Hardware
- Appliance positioning
- Island configuration
- Pantry requirements
- Benchtop options
- Customer budget
- Installation requirements

A design fee may be credited toward an approved kitchen project if specifically stated in the quotation.

25. KITCHEN LAYOUTS

Beky Kitchens can work with:

Straight Kitchen

One continuous run of cabinetry.

Galley Kitchen

Two parallel cabinetry runs.

L-Shaped Kitchen

Two connected cabinet runs.

U-Shaped Kitchen

Three connected cabinet runs.

Island Kitchen

Main cabinetry with a separate island.

Peninsula Kitchen

Cabinetry connected to a wall or main run.

26. STANDARD KITCHEN INSTALLATION INCLUSIONS

A standard installation can include:

- Cabinet positioning
 - Cabinet levelling
 - Cabinet fixing
 - Wall cabinet installation
 - Base cabinet installation
 - Cabinet alignment
 - Standard fillers
 - Kickboards
 - Doors
 - Drawers
 - Basic hardware installation
 - Final adjustments
-

27. STANDARD EXCLUSIONS

Unless specifically included, standard installation does not include:

- Electrical work
- Gas work
- Plumbing

- Structural modifications
 - Major wall removal
 - Major floor levelling
 - Asbestos removal
 - Specialist stone cutting
 - Engineering
 - Building approvals
 - Council fees
 - Appliance supply
 - Cabinet supply
 - Benchtop supply
 - Tile supply
 - Painting
 - Major plastering
-

28. WALL PREPARATION

Kitchen cabinets require suitable walls and floors.

Minor Wall Preparation

Price: \$350

Minor Floor Preparation

Price: \$350

Floor Levelling

Price: \$650

Wall Plaster Repair

Price: \$420

Major structural problems are quoted separately.

29. OLD KITCHEN REPLACEMENT

Typical replacement process:

1. Site inspection
2. Measure existing kitchen
3. Discuss new layout
4. Confirm appliances

5. Confirm cabinetry
6. Remove existing kitchen
7. Prepare walls/floor
8. Install new cabinets
9. Install panels/fillers
10. Install benchtop
11. Install doors/drawers
12. Final adjustment
13. Handover

30. EXAMPLE COMPLETE KITCHEN PROJECT

Example fictional project:

Kitchen cabinetry package: \$8,950

Kitchen demolition: \$1,650

Wall preparation: \$350

Cabinet installation: \$2,850

Island installation: \$650

Benchtop installation: \$850

Splashback preparation: \$480

Final adjustment: \$250

Example project total:

\$16,030

Appliances, plumbing, electrical work, specialist fabrication and other excluded items are additional where required.

32. QUOTING PROCESS

Beky Kitchens should follow this process:

Step 1 — Customer Enquiry

Collect:

- Name
- Address
- Phone number
- Kitchen type
- New or replacement kitchen
- Installation only or supply + install
- Approximate size
- Cabinet supplier
- Appliance requirements
- Benchtop requirements
- Desired timeframe

Step 2 — Photos

Ask for:

- Full kitchen photos
- Cabinet photos
- Floor photos
- Wall photos
- Plumbing area
- Appliances
- Ceiling
- Windows
- Doorways

Step 3 — Site Measure

Where required, arrange a \$120 site measure.

Step 4 — Scope

Confirm exactly what Beky Kitchens will supply and install.

Step 5 — Quote

Provide an itemised quotation.

Step 6 — Customer Approval

Customer accepts the written quotation.

Step 7 — Deposit

Standard deposit: 30%

Step 8 — Ordering

Cabinetry and approved materials are ordered.

Step 9 — Installation

Installation begins once the site and materials are ready.

Step 10 — Completion

Final inspection and adjustments are completed.

33. PAYMENT STRUCTURE

Example fictional payment structure:

Deposit: 30%

Progress payment: 40%

Final payment: 30%

Payment terms should be included in the written quotation and applied subject to applicable Australian requirements.

34. VARIATIONS

A variation may occur when the customer requests additional work.

Examples:

- Additional cabinets
- Additional panels
- Extra fillers
- Cabinet modifications
- Extra demolition
- Unexpected preparation
- Additional installation
- Layout changes
- Additional storage accessories

Variation Labour

\$95 per hour

Variation Administration

\$75 per approved variation

Variations should be approved before additional work proceeds wherever practical.

35. COMMON CUSTOMER QUESTIONS

“Can you install a kitchen I bought myself?”

Yes. Beky Kitchens offers installation-only services for suitable customer-supplied kitchens.

“Can you install flat-pack kitchens?”

Yes. Flat-pack kitchens can be assembled and installed.

“Can you supply the cabinets as well?”

Yes. Beky Kitchens can provide kitchen cabinetry packages.

“Do you do the plumbing?”

Plumbing work is not automatically included. Where required, appropriately licensed plumbing trades should be used.

“Do you do electrical work?”

Electrical work is not automatically included and should be completed by an appropriately licensed electrician where required.

“Can you remove my old kitchen?”

Yes.

Standard kitchen demolition: \$1,650

“Can you install an island?”

Yes.

Island installation: \$650

“Can you install my benchtop?”

Yes, subject to the material and installation requirements.

“Can you modify cabinets?”

Yes, where the cabinet and material are suitable for modification.

“Can you work with IKEA-style kitchens?”

Yes, provided the components are complete and suitable for installation.

“What happens if my cabinets are missing parts?”

Installation may be delayed until the required parts arrive. A return attendance charge of **\$250** may apply.

36. SALES OBJECTIONS

“Your installation price is too high.”

Response:

Beky Kitchens has 20 years of experience in kitchen construction and installation. The price reflects accurate installation, levelling, alignment, cabinet fixing, adjustment and finishing rather than simply assembling cabinets.

“Another installer is cheaper.”

Response:

The customer should compare exactly what is included. A cheaper installation may exclude preparation, cabinet modifications, fillers, panels, adjustment or final finishing.

“I already bought the kitchen.”

Response:

That's fine. Beky Kitchens can install suitable customer-supplied cabinetry. We inspect the components before installation and confirm the installation scope.

“Can you just give me a quick price?”

Response:

We can provide an initial estimate based on photos and information, but the final price should be confirmed after the scope, measurements and supplied materials are understood.

37. PHOTO-BASED QUOTING

Photos can help determine:

- Kitchen size
- Number of cabinets
- Existing condition
- Demolition requirements
- Access
- Appliance configuration
- Benchtop type
- Wall condition
- Floor condition

However, photos do not always reveal:

- Hidden plumbing
- Wall conditions
- Uneven floors
- Structural issues
- Incorrect measurements
- Hidden damage

Therefore, photo pricing should not automatically be treated as a final fixed quotation.

38. QUALITY CONTROL

Before completion, check:

Cabinets

- Level
- Plumb
- Secure
- Correctly aligned

Doors

- Even gaps
- Correct adjustment
- Correct hinges
- Smooth operation

Drawers

- Correct alignment
- Smooth movement
- Correct gaps

Panels

- Correct position
- Secure
- Clean finish

Kickboards

- Straight
- Secure
- Correct height

Benchtop

- Secure
- Correctly positioned
- Cut-outs checked

Final Finish

- Remove protective packaging
- Clean surfaces
- Remove installation debris
- Check hardware
- Check doors and drawers

- Complete final adjustments
-

39. CUSTOMER-SUPPLIED KITCHEN CHECKLIST

Before installation, confirm:

- ☐ Cabinets delivered
 - ☐ Correct cabinet quantity
 - ☐ Doors delivered
 - ☐ Drawers delivered
 - ☐ Handles delivered
 - ☐ Hinges delivered
 - ☐ Panels delivered
 - ☐ Fillers delivered
 - ☐ Kickboards delivered
 - ☐ Fixings delivered
 - ☐ Benchtop available
 - ☐ Sink available
 - ☐ Appliances available where required
 - ☐ Installation area clear
 - ☐ Access available
 - ☐ Services confirmed
-

40. CUSTOMER JOURNEY

Stage 1

Customer contacts Beky Kitchens.

Stage 2

Initial requirements are collected.

Stage 3

Photos are reviewed.

Stage 4

Consultation/site measure occurs.

Stage 5

Kitchen scope is developed.

Stage 6

Quote is issued.

Stage 7

Customer accepts quote.

Stage 8

Deposit is paid.

Stage 9

Cabinetry and materials are confirmed.

Stage 10

Installation date is booked.

Stage 11

Kitchen is installed.

Stage 12

Quality-control inspection occurs.

Stage 13

Final adjustments are completed.

Stage 14

Project is handed over.

41. IMPORTANT INSTALLATION RULES

Beky Kitchens should never automatically assume:

- Customer-supplied cabinets are correct
- Walls are perfectly straight
- Floors are level
- Appliances will fit
- Benchtops are correctly measured

- Plumbing is in the correct location
- Electrical points are correctly positioned
- Missing components will be supplied later
- Structural work is unnecessary

Potential problems should be identified and discussed before installation wherever reasonably possible.

42. SAFETY

Kitchen installation can involve:

- Power tools
- Cutting equipment
- Heavy cabinets
- Dust
- Adhesives
- Sealants
- Glass
- Stone
- Electrical services
- Plumbing services

Appropriate PPE and safe work procedures should be used.

Electrical, gas and plumbing work should be undertaken by appropriately licensed trades where required.

43. TOOLS

Typical kitchen installation equipment includes:

- Drill
- Impact driver
- Circular saw
- Track saw
- Jigsaw
- Mitre saw
- Spirit levels
- Laser level
- Clamps
- Tape measure
- Stud finder
- Cabinet clamps
- Router
- Hole saws
- Screwdrivers
- Spacers

- Shims
 - Caulking gun
 - Dust extraction
 - PPE
-

44. 20 YEARS OF EXPERIENCE — BUSINESS POSITIONING

Beky Kitchens should use its **20 years of experience** as a major trust signal.

The business positioning is:

20 years of kitchen building and installation experience.

Key selling points:

- Experienced workmanship
 - Practical kitchen knowledge
 - Installation expertise
 - Custom kitchen capability
 - Customer-supplied kitchen installation
 - Cabinet modification experience
 - Kitchen renovation experience
 - Attention to alignment and finishing
 - Clear pricing
 - Professional communication
-

45. AI CUSTOMER SERVICE RULES

If an AI assistant is used for Beky Kitchens, it should:

1. Never invent a customer's measurements.
2. Never guarantee a kitchen will fit based only on one photo.
3. Clearly distinguish installation-only from supply-and-install.
4. Use exact prices when providing prices.
5. Never provide price ranges.
6. Explain exclusions clearly.
7. Ask for photos when useful.
8. Recommend a site measure where measurements are uncertain.
9. Identify customer-supplied material risks.
10. Never claim electrical, plumbing or gas work is included unless specifically quoted.
11. Never promise an installation date without confirmation.
12. Never claim a product is suitable without checking its specifications.
13. Escalate unusual structural or technical problems.
14. Keep variations separate from the original scope.

15. Treat the written quotation as the controlling project scope.

46. STANDARD CUSTOMER RESPONSE

When a customer asks:

“Can you install my kitchen?”

Recommended response:

Yes. Beky Kitchens has 20 years of kitchen building and installation experience and can install customer-supplied kitchens, including suitable flat-pack and pre-assembled cabinetry. Our standard kitchen installation price is \$2,850. If the kitchen requires demolition, cabinet modifications, unusual preparation or additional work, those items are quoted separately.

47. INSTALLATION-ONLY CUSTOMER RESPONSE

Yes, we can install a kitchen supplied by the owner. Before confirming the final price, we check the cabinet quantities, layout, panels, fillers, kickboards, hardware and site conditions. Our standard kitchen installation price is \$2,850, with additional work quoted separately where required.

48. SUPPLY + INSTALL CUSTOMER RESPONSE

Beky Kitchens can also supply and install the cabinetry. We can measure the space, discuss the layout and storage requirements, arrange the cabinetry and complete the installation. A site measure is \$120, and the final kitchen price is confirmed after the design, cabinetry and installation scope are established.

49. FINAL MASTER SUMMARY

Beky Kitchens is a fictional Pakenham-based kitchen building and installation business with **20 years of experience**.

The business operates through two main services:

Supply + Build + Install

Beky Kitchens supplies the cabinetry and completes the kitchen installation.

Installation Only

The customer supplies the kitchen cabinetry and Beky Kitchens installs it.

The core standard installation price is:

\$2,850

Other exact fictional prices include:

- Site measure: **\$120**
- Small kitchen installation: **\$1,950**
- Large kitchen installation: **\$4,250**
- Island installation: **\$650**
- Kitchen demolition: **\$1,650**
- Cabinet removal: **\$950**
- Laminate benchtop installation: **\$850**
- Stone benchtop installation: **\$1,250**
- Sink installation: **\$320**
- Cabinet modification: **\$195**
- Return attendance: **\$250**
- Variation labour: **\$95/hour**

The business should always distinguish between:

What Beky Kitchens supplies

and

What the customer supplies.

Customer-supplied kitchens should be checked for completeness and obvious suitability before installation.

All prices in this knowledge base are **exact fictional prices** and should be replaced with actual business pricing before being used commercially.

The key positioning statement is:

Beky Kitchens — 20 years of kitchen building and installation experience.
